

FROM THE PRINCIPAL'S DESK

“The Principal speaks on “international Women’s Day”

“Feminism isn’t about making women strong. Women are already strong. It is about changing the way the world perceives that strength. ”

Today the world celebrates the international Women’s Day and the theme chosen by the UN for this year 2023 is “DigitALL: Innovation and technology for gender equality”.

“Today’s Girls with ambition are Tomorrow’s Women with Perception.”

The aim of the IWD 2023 #EmbraceEquity a focus on gender equity needs to be part of every society’s DNA.”

We remember with gratitude on this special day not only the extra-ordinary women who make the headlines and history but every woman across the globe who in her own little way contributes to the welfare of her family and society.

On this women’s day I wish every woman to be strength, courageous and healthy enough to succeed in everything they aspire for. A woman is core of society without whom existence is next to impossible. As a mother, wife and with many other roles a woman binds the society, family and universe together. Her smile makes a family prosperous and Earth a paradise. Wishing every woman a very happy Women’s Day.
